and neither party is going to give in unless he has to I am of the opinion that the whole business will be adjusted amicably before the end of the week; if not, then there will be the stiffest rate war we have ever had in this country in the passenger

business."

Chicago, May 5.—Chailman Caldwell of the Western Passenger association today decided that ciergymen and all others who ordinarily receive half rates are not entitled to half fare on the reduced one-way

WIND-SWEPT.

WILMINGTON, O., May 5.-A terrible cyclone swept over this town late this afternoon. Half the business portion is unroofed and half of the plate glass is broken. The damage will be enormous. Strange as it may seem, no lives, so far as known, were lost. So violent was the wind that horses on the street were blown over, and not an upright vehicle is to be found any where.

STRIKING SWITCHMEN.

TETTER & ERYSIPELAS Neck Covered with Glandular Swell-

ings. Scrofula. Ears Running. Suffered Terribly. All Remedies Fall. Tries Cuticura-

First Application Relieves. Com-

Two years ago I was poisened in my hands. Then I took Tetter. Then Eryspelas went to my head, face, ears, and neck. My ears were swotlen and running from the inside and outside. I could lie only on my back. My neck was correct with glandmiar swellings — Serofuls. I suffered terribly. I began to use Curreuma Rammons. The first application relieved me very much, and in three weeks my ears, head, and face were well. Curreuma Rammons cured mo when all other remedies failed, and I had despaired of ever being any better. I cannot be without them now, and shall recommend them to my suffering friends, for I do say that they are the

Cuticura Remedies

Have cured me of every form of Rerema from which I was alling, namely, sore eyes, weak back, sick stomach, and nervous headache. I was pronounced incurable by the doctore. I doctored for four years and hept setting worse, until I found the Curricuma Rewrotes which I believe have eared my life. I highly recommend them to all my friends.

Foreign Houses Pick Up Sixty Thousand Shares of Valuable Properties Thrown Over by the Crazy Brokers-The Market Closes With Recoveries-Call Money Ranges From 4 to 40 Per Cent-Governor McKinley's

WALL STREET, N. Y., May 5.-There ere lowering and portentous clouds on the Wall street horizon this morning. The street was early astir with anxious brokers and a feverish unrest pervaded the crowd. No one knew what an hour might bring forth. Some perchance felt their toes over the edge of the sheer declivity, and could not tell but that the developments any minute might push them clean over the brink into the financial plt. Others, with narrow margins between their feet and the precipice-but still marginswere waiting to learn if the intervening space was rock, or sliding sand, or crumb-

The optimists, who before the opening nagined that the stock market might

From prices was uncommonly heavy, and the prices was uncommonly heavy previous time since the panic started.

National Cordage preferred dropped 25, to 45. American Sugar, 20%, to 65%; the same preferred, 17, to 66; American Cotton of Oil, 8, to 34. National Cordage, common, 4%, to 15½; American Tobacco, 4, to 55. Cieveland, Cincinnati, Chicago and 85. Louis, 5½; the same preferred, 10, to 68. Amaginity of the directors of the National Cordage company held a meeting lasting till late in the day. At its heatan, 10%, to 115; National Lead, 6, to 25%; the same, preferred, 10, to 68; New England, 3, to 25, to 358; Multiple and Cordage company held a meeting and Linke Erie preferred 4%, to 45%; to 69%. Western Union, 3, to 84, and winceling and Linke Erie preferred 4%, to 45%; to 69%. Western Union, 3, to 84, and winceling and Linke Erie preferred 4%, to 45%; in Sugar, to 68, 4 in Cotton Oil, to 34; in Sugar, to 68, 4 in Cotton Oil, to 34; in Sugar, to 68, 4 in Cotton Oil, to 34; in Sugar, to 68, 2 in Cordage common, to 17%, and 5 in the same preferred, to 50. The rady did not hold, and speculation was excited and feverish owing to the circulation to account of the first of the company in other states will be appointed tomorrow.

From the United States circuit court today Messars, Young and Loper were appointed to heavy of the Superior of New Messars and Loper were appointed to heavy for the Southern district of New Message and Loper were appointed to heavy for the Southern district of New Message and Loper were appointed to heavy for the Southern district of New Message and Loper were appointed to that he was approached that he was the southern district of New Southern dear the proposition to buy his vota for J. Hudson of th

be General Electric: 4 in Manhattan, to 119, 21, in Sugar, to 68, 4 in Cotton Oil, to 34, 23, in Quincy, to 86, 2 in Cotdage common, to 179, and 5 in the same preferred, to 50. The raily did not hold, and speculation was excited and feverish owing to the circulation of rumors affecting the solvency of other firms and individuals.

The laborated excitement abated some what after 11 o'clock, but the fluctuations continued wild and frequent. When buying orders appeared prices jumped 1, 2, 3 and 4 points at a time, but the pressure to sell was immediately followed by a break. They bought the material was immediately followed by a break. They bought the material was finded worthings, said of the failure. The recoveries from the lowest prices were 17 points in General Electric, 63, in Sugar, 7 in Manhattan, 27, in New England, 5 in Big Four, 4 in National Lead, and 5 in Western Union. The absence of further failures had a reassuring effect, and at noon the market was firm and advancing. In the afternoon some of the interests which had been sucked into the whirlwind and started down the precipics of declining prices began to gain strength and poil themselves up. At non-few content of the content of the supposition, before for the fluctuations of rumors affecting the solvency of the money market did therest."

To be after a fluctuations of rumors affecting the solvency of the condition of rumors affecting the solvency of the supposition of rumors affecting the solvency of the fluctuations of rumors affecting the solvency of the fluctuations when the fluctuations are continued wild and frequent. When buying orders appeared prices jumped 1, 2, 3 and 4 points at a time, but the pressure to construct the condition of rumors affecting the solvency of the fluctuations of the fluctuations of the fluctuations of the fluctuations and the rumor of the fluctuations of the which had been sucked into the whirlyind and started down the precipice of declining prices began to gain strength and pullt themselves up. At noon General Electric got a hold and pulled itself back II points. Sugar also made a steady advance. The third hour of the speculative day was stilly young when action became more rapid and the fluctuations again became extremely wide and rapid.

Seen at the distance of 3,000 miles across the Atlantic, the situation had a different aspect. Foreign houses went quietly to work, picking up the dividend payers which our own brokers were throwing madic over. The foreign purchases were theavy enough to demonstrate foreign exchange and the posted rates were reduced to \$4.85 and \$4.85. The foreigners had taken fully 00,000 shares up to 1 o'clock.

The foreign buying anneed a change for the better after 1 o clock and a stable.

Per cent.
The total sales of stocks footed up 771,-

per cent.
The total sales of stocks footed up 771,777 shares.
Railway and other bonds were demoralized. Chicago and Eastern Illinois consols fell 4 per cent; General Electric debentures 5's, 6 per cent; Little Rock and Memphis first, 5 per cent. Toledo and Ann Arbor and Grand Trunk first, 6 per cent, and several others at 3 per cent each.
After the battle was over for the day, and the situation was locked over from a distance, at well informed quarters the feeling grew that the worst has been seen in Wall street and that from this time on matters will improve. This theory had to some extent obtained before the close, based on the fact that certain houses whose names had been freely mentioned as being in trouble early in the day had pulled through all right. Numerous purchases, it was seen, had been made right, through the list. There had been a revalsion in sentiment and prices had bounded up almost as rapidly as they had dropped early in the day.

Lame R. Keene was a heavy buyer of

sion in sentiment and prices had bounded up almost as rapidly as they had dropped early in the day.

James R. Keene was a heavy buyer of American sugar from 64 up. One broker received an order for 1,000 shares of Lead when the stock was selling at 32. All he was able to secure was 400 shares at 36. This indicates the manner in which the market moved in the last half hour.

It is generally believed that several important houses at the close of business were confronted with what appeared to be inevitable failure, and that the banks and bankers, realizing that the weak must be saved at any cost, came to the resone. It is reported that William K. Vanderbilt and Robert Goelet placed \$2,000,000 in the gap. The banks, wherever possible, gave the utmost credit. The weak spots were strengthaned and the trouble feared by the whole down town community was tided over. Drexel, Morgan & Co. were at the service of the "street." It is said inte tonight that the wealthy sugar men the Havemeyers have put up \$1,000,000 to enable Deacon White to resume business, and that the latter will resume payments tomorrow.

The rumor of yesterday that S. V. White, the veteran speculator, was tangled up in Cordage found verification today. Shortly after the opening his failure was announced. There was also a smell of Chicago Gas about the failure. The deacon confessed that Cordage and Chicago Gas were responsible for his failure. The people who looked over the cliff where he had failen remarked that it was too bad, and just when he was getting on his pins.

pins.

It will be remembered that Mr. White was practically ruined two years ago in an attempt to corner the corn market. He eventually made a settlement with his creditors and resumed business on the stock exchange. He made considerable money in the industrials, but, like many others, overstayed his market. Mr. White was unable to give a definite idea of his liabilities, but said that he would make a statement in a day or two.

maily over. The foreign purchases were heavy enough to demonstate foreign exchange and the posted rates were reduced to \$4.95 and \$4.95. The foreigness had taken taily 00,000 shares up to 10 clock.

The foreign buying caused a change for the better after 10 clock and a steadier from characterized the next dealings. They saw good things going very cheap. The courage of the foreigners revived the drooping spirits of the broker, and a general raily ensured. Manhattan bounced up to 1879, from \$6, sugar, to \$10, from \$6, and Change (iss, 10.72), from \$10, from \$6, and Change (iss, 10.72), from \$10, from \$6, and Change (iss, 10.72), from \$10, f

general list closed 12 to 14 points higher than last night, and the industrial closed 12 to 14 points lower. At 3 o'clock money was easier. It had ranged from 4 to 40 ously depressed. While the average depressed. but the industrials were the most seri-ously depressed. While the average decline in all stocks was about 86 per share for the week, Cordage fell 43 points, Sugar occurred within the general disturbance, and the appointment of receivers for Cordage shows, in some sense, a relief. The other speculative markets are, on the whole, rather stronger than a week ago. At nearly all points the backward season and had weather, with slow collections,

and had weather, with slow collections, give cause of complaint.

"The iron trade shows no improvement. There is a pressure to sell from the west. Southern No. 2 is sold at \$8.50 at Birmingham, and Bessemer has failen to \$13.40 at Pittsburg. Bar is cut again and structural iron is slow. Sales of 15,000,000 pounds of lake copper to American consumers at II cents are reported. The and lead are weak and coal is dull. In the boot and shoe trade there has rarely been such duliness. Receipts of cattle at the west are slightly larger than a year ago. Wool sales at Boston, Philadelphia and New York for the year are 2,500,000 pounds less than last year to date. The trade in woolens is narrow and disappointing, and in cottons waiting and uncertain.

"The speculative markets, have been

pointing, and in cottons waiting and un-certain.

"The speculative markets have been rather strong. Wheat has advanced I centrally corn, 1% cents, and pork 75 cents per bar-rel, with scarcely any discoverable reason, though western reports regarding the coming crops are unsatisfactory. Oil has dropped nearly nine cents per barrel, but cotton is unchanged, though sales here have been heavy.

cotton is unchanged, though sales here have been heavy.

"The prices of commodities averged four-tenths of 1 per cent, lower than a week ago, and the tendency is downward as the monetary difficulties increase.

"The exports from New York were very small last week, and for the last four weeks have been about \$4,000,000 below those of last year; so that imports for the past month were probably \$10,000,000 or more greater than the exports.

"Among the failures of the week only one is reported of a rating above \$300,000, only one between \$125,000 and \$300,000, two between \$40,000 and \$75,000 and eight between \$20,000 and \$40,000—in all only fifteen of a rating exceeding \$10,000 out of 240 in all the United States and Canada."

OTHER POINTS EXCITED

MONTREAL, May 5. - Intense excitement was caused on the stock exchange by the New York break. Montreal speculators have lost more than \$1,000,000 and it was feared that the New York panic at one time would cause a bad break in the local
